**ADMINISTRATIVE LAW JUDGE’S RULING
IDENTIFYING AND RECEIVING EXHIBITS INTO THE RECORD**

Resolution of the earnings claims issues in this consolidated proceeding has been deferred pending the Commission’s review and consideration of settlement agreements between the Office of Ratepayer Advocates and each of the following utilities: Pacific Gas & Electric Company (PG&E), Southern California Edison Company (SCE), San Diego Gas & Electric Company (SDG&E) and Southern California Gas Company (SoCalGas).

Rule 51.1.(e) of the Commission’s Rules of Practice and Procedure establishes the legal standard applicable to the Commission’s review of settlement agreements as follows:

“The Commission will not approve stipulation or settlements, whether contested or uncontested unless the stipulation or settlement is reasonable **in light of the whole record**, consistent with law, and in the public interest.” (Emphasis added.)

The purpose of this ruling is to identify and receive into evidence those documents that have been presented throughout the course of this consolidated proceeding as prepared testimony, reports or referred to and discussed in comments and other pleadings, that must be submitted to Central Files in order to become part of the “formal record” in this proceeding. Documents that have been formally filed by the parties, such as applications, comments and reply comments, are—by definition—already part of the formal record. However, as indicated in the Attachment to this ruling, there are numerous other documents that have been submitted for the Commission’s consideration of the issues that are not currently included in the formal files. Had evidentiary hearings been held in this proceeding, each of these documents would have been identified as an exhibit and, barring any objections, received into evidence.

In addition to documents submitted by the utilities and interested parties in the form of testimony and accompanying reports, there have been documents prepared by Energy Division's consultants to evaluate energy efficiency measurement studies, per the Commission's direction. These have been reviewed in public workshops and considered by ORA and others in the development of their prepared testimony, and are identified in the attachments as exhibits. There are also documents referred to in intervenors' comments and reply comments that should be part of the record, in order for the Commission to consider them in the context of those comments. They are also identified as exhibits, as are utility responses to my data requests with respect to the settlement agreements. Finally, I have identified Energy Division's auditor reports that examine the administrative costs for the Interruptible Load Program. The Commission directed Energy Division to complete these audits as part of this proceeding, and comments have been submitted on the auditor's recommendations.

Accordingly, I am identifying the exhibits in this proceeding as listed in the Attachment to this ruling. Unless I receive any objections, I will receive them into evidence on July 25, 2005. As soon as practicable thereafter, I will arrange for them to be appropriately marked and submitted to Central Files for inclusion in the formal record.

Please note that this procedure does not confer any weight to the information presented in these documents. It only provides the Commission with the opportunity to consider the information and give it the weight it deems appropriate, based on the parties' pleadings.

Any objections to the receipt into evidence of the exhibits presented in the Attachment should be filed and served no later than July 22, 2005. Responses are

due by July 28, 2005. If any party believes that documents submitted in this proceeding are missing from the attached list of exhibits, they should file and serve by July 22, 2005 a descriptive listing of those documents, the dates of submittal and the party/witness sponsoring each document. Only documents that have *not* been filed with the Commission's Docket Office need to be identified as exhibits in order to become part of the formal record in this proceeding.

IT IS RULED that:

1. Barring any objections, the exhibits identified in the Attachment to this ruling shall be received into evidence on July 25, 2005, in order to become part of the formal record in this proceeding.

2. Any objections to the receipt into evidence of an exhibit or exhibits identified in the Attachment shall be filed and served no later than July 22, 2005. If any party believes that documents that have been submitted in this proceeding are missing from the attached list of exhibits, they shall also file and serve by July 22, 2005 a descriptive listing of such documents, the dates of submittal and the party/witness sponsoring each document. Responses are due by July 28, 2005.

3. All filings required by this ruling shall be filed at the Commission's Docket Office in the above-captioned consolidated proceeding and served using the

Electronic Service Protocols attached to my ruling dated June 7, 2005 and consistent with the electronic service provisions of Rule 2.3 and 2.3.1. The Commission's Rules of Practice and Procedure are posted at http://www.cpuc.ca.gov/PUBLISHED/RULES_PRAC_PROC/46095.htm

Dated July 15, 2005, at San Francisco, California.

Parties should notify the Process Office, Public Utilities Commission, 505 Van Ness Avenue, Room 2000, San Francisco, CA 94102, of any change of address to insure that they continue to receive documents. You must indicate the proceeding number on the service list on which your name appears.

The Commission's policy is to schedule hearings (meetings, workshops, etc.) in locations that are accessible to people with disabilities. To verify that a particular location is accessible, call: Calendar Clerk (415) 703-1203.

If specialized accommodations for the disabled are needed, e.g., sign language interpreters, those making the arrangements must call the Public Advisor at (415) 703-2074, TTY 1-866-836-7825 or (415) 703-5282 at least three working days in advance of the event.
